Personal, Social, Health and Citizenship Education Policy

1 Context

This policy supports a whole school approach to PSHE and Citizenship (PSHCE) in the curriculum, and throughout the life of the school and its community. It is consistent with current legislative frameworks and non-statutory guidance.

1.1 Statutory Status of Relationships Education and Health Education

This policy takes account of the requirement that all schools with primary aged children must teach Relationships Education and Health Education from September 2020. We will teach these two statutory subjects in the context of our wider Personal, Social, Health and Citizenship Education (PSHCE) curriculum.

1.2 Wider Context

Our approach to the teaching of PSHCE supports our duties relating to Keeping Children Safe in Education, Equality Act 2010, SEND, promoting fundamental British Values and Spiritual, Moral, Social and Cultural (SMSC) development. It also supports us in meeting the standards set out by Ofsted in relation to 'Behaviour and Attitudes' and 'Personal Development.'

1.2.2 Duty to Promote Wellbeing

The Education and Inspections Act 2006 places a requirement on schools to promote pupils' wellbeing (as defined in the Children Act 2004) as well as their academic achievement. It also includes a duty to support community cohesion. We are committed to promoting the health and wellbeing of children and of the whole school community, and fully recognise the significant connection between wellbeing and learning. PSHCE is a significant part of our response to these duties.

1.2.3 National Curriculum

The National Curriculum states that all schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. It must also: 'promote the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and prepare pupils at the school for the opportunities, responsibilities and experiences of later life.'

1.3 Our beliefs about PSHCE

We believe that PSHCE has the power to enhance the health and wellbeing of all children, their families and the whole school community. It has a positive influence on the ethos, learning and relationships throughout the school. It is central to our values and to achieving our school's aims.

PSHCE helps children to develop the knowledge, understanding, skills and attitudes they need to live confident, healthy, independent lives, now and in the future, as individuals, citizens, workers and parents. It is embedded within wider learning to ensure that children learn to develop resilience and healthy relationship skills, which they will practise and see enacted in the school environment.

1.4 Defining PSHCE

We will use 'Personal, Social, Health and Citizenship Education' (PSHCE) as an umbrella term for all aspects of practice and learning in our school associated with wellbeing and health. A significant part of our PSHCE provision will be accessed through the planned, taught curriculum. Our PSHCE curriculum is supported by whole school enrichment activities.

Many aspects of our PSHCE provision are statutory from September 2020, as part of Relationships Education and Health Education. However, there are other areas that we consider important for our children e.g. Road Safety

and Financial Education. These areas are not statutory, but we will teach them in the wider context of our PSHCE provision to meet the needs of our children.

We do not seek to teach Relationships Education and Health Education as a separate subject, but integrate it through the topics we cover in our broader PSHCE programme.

1.5 Intent of our PSHCE Curriculum

Our aims for PSHCE are:

- To enhance skills for communication, empathy and healthy relationships which underpin both success in learning and positive relationships,
- To support the development of resilience, self-esteem, self-efficacy and aspiration,
- To offer accurate and relevant knowledge to support decisions about personal wellbeing and health,
- To explore the relevance of knowledge for personal situations and decision making,
- To offer opportunities to explore, clarify and if necessary challenge, their own and others' values, attitudes, beliefs, rights and responsibilities,
- To offer the skills and strategies they need in order to live healthy, safe, fulfilling, responsible and balanced lives.

2. Implementing Policy

2.1 School Aims and Values

This PSHCE policy is set within the wider context of the school's aims and values, which include the following:

- We promote a healthy, safe and caring environment for all pupils and staff.
- We provide a broad and balanced curriculum for all our pupils, which recognises and values their diverse backgrounds and needs.
- We promote pupils' self-esteem and emotional wellbeing and help them to form and maintain worthwhile and satisfying relationships, based on respect for themselves and for others at home, school, work and in the community.
- We prepare our pupils to engage with the challenges of adult life confidently.
- We provide sufficient information and support to enable our pupils to make safer choices.
- We provide pupils, through an enriched curriculum, with opportunities to develop the necessary skills to manage their lives effectively.
- We help our pupils to learn to respect themselves and others and move safely from childhood, through adolescence, into adulthood.
- We create a wider awareness of religious, cultural and moral values and respect for different ethnic groups, religious beliefs and ways of life within a Christian framework.
- We promote an inclusive ethos and a culture of mutual respect where diversity and difference are recognised, appreciated and celebrated.
- We work in partnership with parents and carers, and with the wider community, to support children in all aspects of their wellbeing.

2.2 Aims of our PSHCE Policy

The aim of our PSHCE Policy is to ensure quality and consistency in our approach to all aspects of PSHCE in our school. This includes our whole school approach to promoting health and wellbeing, as well as the curriculum.

The policy aims to:

- explain the central role PSHE plays in the life of the school and in children's learning, within the context of national and local guidance,
- provide guidance to members of staff in all roles about their responsibilities in relation to PSHE,
- ensure that the entire school community understands the role of PSHE in the ethos of the school,
- ensure a consistent approach to planning and delivering PSHE,
- ensure that children receive an entitlement curriculum with progression and a high quality experience of teaching and learning,
- ensure that staff have the knowledge, understanding and skills to deliver the PSHE curriculum,
- promote partnership work with parents/carers to support children's learning and development in PSHE, health and wellbeing,
- support children's involvement in reviewing and developing work related to PSHE,
- enable the assessment of children's learning in line with local and national guidance,
- ensure we promote healthy lifestyles in school,
- provide guidance about the criteria for selecting and using high quality resources,
- provide guidance to help ensure the quality of methodology and approaches to teaching and learning in PSHE,
- support the PSHE coordinator in monitoring, reviewing and developing practice.

2.3 Related Policies

This policy acts as an overarching policy for theme-specific policies and guidance in the following areas: *Anti-Bullying, RSE, Drug Education and Healthy Eating*. These policies include more detailed explanation of how these themes will be delivered.

It is also linked to and is delivered in the context of the following policies: Relationships Education, Health Education, Behaviour, Safeguarding, Anti-Bullying, Spiritual, Moral, Social and Cultural (SMSC) development, SEN / Inclusion, Equality and Diversity, Health and Safety, Privacy Notice of Visits / Visitors, Computing (including Online Safety and Acceptable Use policy) and the Science Intent Statement.

2.4 Implementing Our PSHE Curriculum

Our PSHE and Citizenship programme (which is covered through the taught curriculum and our wider provision) includes teaching and learning within the following strands and themes:

Myself and My Relationships: including My Emotions, Beginning and Belonging, Anti-Bullying, Family and Friends and Managing Change

Healthy and Safer Lifestyles: including Personal Safety, Digital Lifestyles, Drug Education, Relationships and Sex Education, Healthy Lifestyles and Managing Safety and Risk (including Road Safety)

Citizenship: including Diversity and Communities, Rights, Rules and Responsibilities and Working Together

Economic Wellbeing: including Financial Capability

2.5 Inclusion, Equality and Diversity

We promote the needs and interests of all pupils, inclusive of gender, culture, ability and aptitude. Our approaches to teaching and learning take into account the ability, age, readiness and cultural backgrounds of the children to ensure that all can access the PSHE curriculum.

In relation to those with special educational needs, we will review our PSHE programme to ensure that appropriate provision is made. When working with children with additional needs we consider:

- their level of vulnerability,
- their need to develop assertiveness and their sense of self,

- the need to involve all staff and carers in policy development, planning and training,
- the need for a range of approaches to teaching and learning to ensure they are genuinely inclusive,
- sources of support for pupils.

In relation to ethnicity, religion and cultural diversity, we value the different backgrounds of our children and, in acknowledging and exploring different views and beliefs, seek to promote respect and understanding.

We are particularly aware of our duties under the Equalities Act and will ensure that all children with protected characteristics, or whose family members may have protected characteristics, see themselves reflected in our PSHCE provision. We will achieve this by careful selection of teaching resources, case studies and children's fiction.

The protected characteristics are: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

We recognise that PSHCE is a prime location for proactive teaching of skills relating to empathy, acceptance and respect for diversity.

We promote social learning and expect our pupils to show a high regard for the needs of others. PSHCE is an important vehicle for addressing both cultural and gender issues and for promoting equal opportunities and access for all.

2.6 Confidentiality and Safeguarding

The delivery of high quality PSHCE supports us in delivering our statutory duties relating to safeguarding. We recognise that many areas of PSHCE will prompt children to reflect on their own families, relationships and personal experiences. We know that, for some children, this will highlight disparities that may cause them to seek help from trusted adults in school.

Staff will build safe learning environments through the creation of ground rules specific to PSHCE. Staff will use distancing techniques such as puppets, case studies and children's fiction to make direct talk about home circumstances less likely in a whole class teaching situation.

Adults will ensure that children understand what adults (and their peers) may and may not keep confidential.

If visitors are working in a classroom or other teaching situation, they will follow the school's policies / guidance on confidentiality and on safeguarding, and other relevant school policies.

All staff are aware of the safeguarding and child protection procedures and will report disclosures or concerns to the Designated Safeguarding Lead (DSL) immediately.

3. Involving the Whole School Community

3.1 Working with Staff

Within the context of the school development plan support and training will be made available to all staff as appropriate. This includes allocating time at staff meetings to introduce new areas of work and to review the effectiveness of the approaches used. Whole staff training is used where there are development needs for the whole staff. Individual staff members are offered training opportunities to enable them to fulfil their roles. Staff members are informed about the location and content of policies that apply throughout the school.

3.2 Engaging with Pupils

If PSHCE is to be effective, we understand that it must meet the needs of pupils. Also, we recognise that if pupils are fully engaged in areas of work, they will build ownership and self-efficacy in these areas, leading to more positive outcomes.

- We will involve pupil voice in the evaluation and development of PSHCE in ways appropriate to their age.

- We will seek opportunities to discuss children’s views about the content of their PSHCE lessons through pupil voice.
- We will utilise the student Lighthouse Group (student council), pupil leadership groups, the Leader in Me programme and school assemblies to engage with children on key areas of whole school development.

3.3 Working with Governors

The governing body as a whole plays an active role in monitoring, reviewing and developing the policy and its implementation in school.

3.4 Communicating with Parents/Carers

We recognise the key role that parents / carers fulfil in supporting their children through their personal development and the emotional and physical aspects of growing up. Therefore, we seek to work in partnership with parents and carers when planning and delivering PSHCE. We encourage this partnership by:

- informing parents / carers of forthcoming PSHCE topics and their content,
- encouraging children to share at home their learning about all aspects of PSHCE,
- inviting parents / carers to discuss their views and concerns about PSHCE.

Parents and carers will be given access to this policy on request. It is also available on the school website.

3.5 Working with External Agencies and the Wider Community

Where appropriate we use visits and visitors from outside agencies or members of the community to support the PSHCE programme. This is an enrichment of our programme and not a substitute for our core provision, which is based upon the strong relationships between teachers and pupils.

External trips and residential visits make a significant contribution to children’s personal development. When planning such visits, we use opportunities to promote children’s learning in relevant areas of the PSHCE curriculum.

Our partnership with the local community is a significant part of school life, and we recognise and value its contribution to the PSHCE programme. Many of our links with the community enable us to practise active citizenship.

We include a range of opportunities for community involvement and activities, such as:

- links with the church (e.g. visits to church),
- charity fundraising (e.g. links with the local food bank, supporting events such as Comic Relief and Children in Need),
- extra-curricular clubs and activities (e.g. choir performance in care home),
- links with local services (e.g. visits from the Police Community Support Officer)

4. Curriculum Organisation

The DfE guidance for Relationships Education and Health Education require that the curriculum is organised in such a way that:

- ‘Effective teaching ...will ensure the core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way within a planned programme of lessons.’
- Children will receive ...‘Opportunities to practise applying and embedding new knowledge so that it can be used confidently and skilfully in real life situations.’

We recognise the increased importance of PSHCE within our timetable, now that Relationships Education and Health Education have become statutory. We will ensure that it has equal status with other foundation subjects in the curriculum.

Children receive their entitlement for learning in PSHCE through a progressive, spiral curriculum. Our PSHCE programme is delivered through a variety of opportunities for children of all ages, including:

- designated timetabled lessons in PSHCE,
- subjects across the curriculum e.g. Science, English, RE, Design and Technology,
- enrichment activities e.g. Anti-Bullying Week and Bikeability
- visitors to school e.g. dental nurse
- residential and day visits e.g. trip to Grafham Water Residential Centre
- assemblies on our school's values
- small group interventions e.g. social skills groups.

We recognise that PSHCE is best taught by adults who know our children well. PSHCE will primarily be taught by the class teacher, supported by other members of staff where appropriate.

4.1 Teaching Methodologies

In order to address the 'active learning triangle' of knowledge, skills and attitudes, a wide range of methodology are used when teaching the PSHCE curriculum. The focus is on interactive learning, and approaches include: circle time, whole class discussion, social skills games and activities, working in pairs / groups, brainstorming, drama and role play, use of puppets, use of story and picture books and use of technology. Many of these approaches also act as distancing techniques, enabling children to discuss issues without discussing personal experience. Many of the methodologies we use in PSHCE will also be employed in other areas of the curriculum to further develop communication, group work and debating skills.

Ground Rules

PSHCE is taught in a safe, non-judgmental environment where adults and children are confident that they will be respected. Teachers and children together develop ground rules, which ensure that every child feels safe and is able to learn in a supportive and caring environment.

Answering Questions

We acknowledge that sensitive issues will arise in PSHCE, as children will naturally share information and ask questions. When spontaneous discussion arises, it will be guided in a way that reflects the stated school aims and curriculum content for PSHCE. If a member of staff is uncertain about the answer to a question, or indeed whether they should answer it, they will seek guidance from the PSHCE leader or senior leaders. Questions may be referred to parents / carers if it is not appropriate to answer them in school. We may use a 'question box,' where questions may be asked anonymously.

When answering questions, we ensure that sharing personal information by adults, pupils or their families is discouraged. Where a question or comment from a pupil in the classroom indicates the possibility of abuse or risk of harm, teachers will pass this information to the Designated Safeguarding Lead (DSL), in line with school policy and procedures.

Further information about how we will answer questions about aspects of PSHCE such as RSE and Drug Education can be found in the specific policies for those areas.

4.2 Curriculum Materials and Resources

We use the Cambridgeshire Primary Personal Development Programme and the resources recommended within it when planning and delivering PSHCE.

We will avoid a 'resource-led' approach to delivering PSHCE, instead focusing on the needs of the children and our planned learning objectives. We will carefully select resources that meet these objectives. We will evaluate teacher resources before using them.

When PSHCE-related resources are being used within other subject areas the same criteria are applied. This also applies to online resources, such as the use of websites and presentations.

We will use children's books, both fiction and non-fiction, extensively within our PSHCE programme. The same selection criteria apply, and teachers will always read and assess the books before using them to ensure they are appropriate for the planned work. They will also consider the needs and circumstances of individual children in the class when reading texts.

The key texts we use are listed within the Cambridgeshire PDP Units of Work.

4.3 Assessment, Recording, Reporting

We assess children's learning in PSHCE in line with approaches used in the rest of the curriculum. Children's learning is planned using learning objectives that are explained to the children, and we may negotiate success criteria with them at the start of each topic. Teachers draw on their observation of children's learning and children's self-assessment to arrive at their overall assessments.

We record children's work in PSHCE in whole class floor books often with photographs as a result of group discussion or role play activities. We use Sonar Tracker to track and monitor children's progress throughout their time at The Queen's Federation.

Teacher assessment is used to provide an overview of the child's learning within a unit of work, and to assess whether the child is working towards the expected level, working at the expected level or working at greater depth within the expected level. We will use the tools for children's self-assessment where appropriate. Children are supported to participate in this process appropriately for their age and ability.

We report to parents / carers at the end of the school year on children's learning within PSHCE.

5. Monitoring the Impact

5.1 The Process for Development and Review

This policy has been drawn up in consultation with senior leaders, PSHCE subject leader and school governors. We are committed to the ongoing development of PSHCE in our school. We will use the following indicators to monitor and evaluate our progress:

- A coordinated and consistent approach to curriculum delivery has been adopted.
- A flexible approach to delivering PSHCE that responds to children's needs.
- Children are receiving an entitlement curriculum for PSHCE in line with statutory requirements and the Cambridgeshire Personal Development Programme.
- There are clearly identified learning objectives for all PSHCE activities, and children's learning is assessed using teacher assessment judgements.
- Opportunities for cross-curricular approaches are being used where appropriate.
- The impact of training for staff and governors is evaluated.
- Policy and practice is reviewed regularly and involves staff, governors and, where appropriate, children.
- Our website reflects our provision in PSHCE.

The PSHCE subject leader / Deputy Headteachers and Executive Headteacher are responsible for overseeing and reviewing this policy.

The Policy will be reviewed every 2 years or sooner if there are significant changes or circumstances necessitate a review.

The next review will take place by 6.1.2027.

5.2 Location and Dissemination

This policy document is freely available on request to the entire school community.

A copy of the policy can be located on the school website.
